Subject Index

Acquired immunodeficiency syndrome (AIDS)
AIDS and the practice of ophthalmology, 70
Aging
Ophthalmology and the "Greying of America," 126
Albumin
Tear analysis in contact lens wearers, 106
Anterior chamber implants
Anterior chamber implants and postoperative astigmatism, 32
Antibiotic sensitivities
Trends in contact lens associated corneal ulcers, 145
Aphakia
Gas permeable extended wear lenses: Aphakic patients, 51
Astigmatism
Anterior chamber implants and postoperative astigmatism, 32
Indications for contact lens fitting after keratoplasty, 225
Bacterial adherence
Bacterial adherence to contact lenses, 220
Benzalkonium chloride
Benzalkonium chloride adsorption to rigid gas permeable lenses (letter), 207
Chlorhexidine gluconate and benzalkonium chloride adsorption on silicone/acrylate polymers, 43
Blebs, endothelial
Endothelial response to contact lens wear, 150
Book Reviews
Computerized visual fields: What they are and how to use them, 79
Modern management of ocular disease, 79
Boundary layer
Some comments on methods used for measuring oxygen permeability (Dk) of contact lens materials, 36
Chlorhexidine gluconate
Chlorhexidine gluconate and benzalkonium adsorption on silicone/acrylate polymers, 43
Commentary
Laughing at contact lens wearers, 75
Computers
The computer contract, 138
Software review: *Bookends* and *Bookends extended,* 141

Conjunctivitis
Ocular surface disease complicating hydrophilic lens wear, 158
Contact Lens Association of Ophthalmologists (CLAO)
The accelerated revolution in ophthalmology, 71
Contact lens deposits
Meibomian gland evaluation in patients with extended wear soft contact lens deposits, 95
Contact lenses
Bacterial adherence to contact lenses, 220
Chlorhexidine gluconate and benzalkonium chloride adsorption on silicone/acrylate polymers, 43
Corneal epithelial response to contact lens wear, 153
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Endothelial response to contact lens wear, 150
Extended wear of hard gas permeable contact lenses can induce ptosis, 93
Gas permeable extended wear lenses: Aphakic patients, 51
Indications for contact lens fitting after keratoplasty, 225
Inspection and measurement of soft contact lenses using a new instrument, 86
Meibomian gland evaluation in patients with extended wear soft contact lens deposits, 95
Optical correction of postoperative radial keratotomy patients with contact lenses, 59
Presentation of a lost contact lens (letter), 206
Problem solving in extended wear (symposium), 173
Pyogenic granuloma associated with extended wear contact lenses, 99
Rigid contact lens wear in the corneal transplant patient, 39
Some comments on methods used for measuring oxygen permeability (Dk) of contact lens materials, 36
Trends in contact lens associated corneal ulcers, 145
Contrast sensitivity
The other side of visual acuity testing: Contrast sensitivity, 230
Cornea
Anterior chamber implants and postoperative astigmatism, 32
Corneal epithelial response to contact lens wear, 153
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Keratocyte interactions with hydrogel materials, 54
Optical correction of postoperative radial keratotomy patients with contact lenses, 59
Rigid contact lens wear in the corneal transplant patient, 39
Corneal endothelium
Endothelial response to contact lens wear, 150
Corneal epithelium
Wide-field specular microscopy of corneal epithelium, 165
Corneal perforation
Presumed epithelial ingrowth following radial keratotomy, 247
Corneal thickness
New correlations in keratoconus using pachymetric and keratometric analysis, 101
Corneal ulcers
Trends in contact lens associated corneal ulcers, 145
Cornea/tear film
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
New correlations in keratoconus using pachymetric and keratometric analysis, 101
Ocular surface disease complicating hydrophilic lens wear, 158
Tear analysis in contact lens wearers, 106
Wide-field specular microscopy of corneal epithelium, 165
Cystic mass
Presentation of a lost contact lens (letter), 206
Dry eye
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Editorial
AIDS and the practice of ophthalmology, 70
Enter computers, 6
Help from our friends, 205
Ophthalmology and the "Greying of America," 126
Epithelial ingrowth
Presumed epithelial ingrowth following radial keratotomy, 247
Epithelial physiology
Corneal epithelial response to contact lens wear, 153
Extended wear contact lenses
Corneal epithelial response to contact lens wear, 153
Extended wear of hard gas permeable contact lenses can induce ptosis, 93
Extreme extended wear of a contact lens (letter), 206
Gas permeable extended wear lenses: Aphakic patients, 51
Meibomian gland evaluation in patients with extended wear soft contact lens deposits, 95
Problem solving in extended wear (symposium), 173
Pyogenic granuloma associated with extended wear contact lenses, 99
Trends in contact lens associated corneal ulcers, 145
Gas permeable hard contact lenses
Chlorhexidine gluconate and benzalkonium chloride adsorption on silicone/acrylate polymers, 43
Extended wear of hard gas permeable contact lenses can induce ptosis, 93
Gas permeable extended wear lenses: Aphakic patients, 51
Rigid contact lens wear in the corneal transplant patient, 39
Some comments on methods used for measuring oxygen permeability (Dk) of contact lens materials, 36
Giant papillary conjunctivitis
Ocular surface disease complicating hydrophilic lens wear, 158
Hard contact lenses
Bacterial adherence to contact lenses, 220
Benzalkonium chloride adsorption to rigid gas permeable lenses (letter), 207
Hydrogel lenses
Keratocyte interactions with hydrogel materials, 54
Implant formulas
Lens implant calculations using an average of several formulas, 216
Intraocular lenses
Anterior chamber implants and *postoperative astigmatism, 32*
Lens implant calculations using an average of several formulas, 216
An ocular telephoto system designed to improve vision in macular disease, 81
Keratoconjunctivitis
Ocular surface disease complicating hydrophilic lens wear, 158
Keratoconjunctivitis sicca
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Keratoconus
New correlations in keratoconus using pachymetric and keratometric analysis, 101
Keratocytes
Keratocyte interactions with hydrogel materials, 54
Keratophakia
Alloplastic refractive keratophakia: A comparison of predictive algorithms, 112
Keratoplasty
Indications for contact lens fitting after keratoplasty, 225
Rigid contact lens wear in the corneal transplant patient, 39
Keratorefractive surgery
Alloplastic refractive keratophakia: A comparison of predictive algorithms, 112
Keratocyte interactions with hydrogel materials, 54
Optical correction of postoperative radial keratotomy patients with contact lenses, 59
Presumed epithelial ingrowth following radial keratotomy, 247
Lactoferrins
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Tear analysis in contact lens wearers, 106
Law
Making Contact Lenses: Is it the practice of medicine? (letter), 131
Limbitis
Ocular surface disease complicating hydrophilic lens wear, 158
Lipids, ocular
Meibomian gland evaluation in patients with extended wear soft contact lens deposits, 95

Lysozyme
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Tear analysis in contact lens wearers, 106
Macular degeneration
An ocular telephoto system designed to improve vision in macular disease, 81
Meibomian glands
Meibomian gland evaluation in patients with extended wear soft contact lens deposits, 95
Mucins
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Negative intraocular lens
An ocular telephoto system designed to improve vision in macular disease, 81
Neovascularization
Optical correction of postoperative radial keratotomy patients with contact lenses, 59
Ocular telephoto system
An ocular telephoto system designed to improve vision in macular disease, 81
Osmolarity
Tear analysis in contact lens wearers, 106
Oxygen permeability
Some comments on methods used for measuring oxygen permeability (Dk) of contact lens materials, 36
Oxygen transmission
Corneal epithelial response to contact lens wear, 153
Pleomorphism
Endothelial response to contact lens wear, 150
Polymegathism
Endothelial response to contact lens wear, 150
Predictive algorithms
Alloplastic refractive keratophakia: A comparison of predictive algorithms, 112
President's message
The accelerated revolution in ophthalmology, 71
Pseudomonas
Bacterial adherence to contact lenses, 220
Trends in contact lens associated corneal ulcers, 145
Ptosis
Extended wear of hard gas permeable contact lenses can induce ptosis, 93
Pyogenic granuloma
Pyogenic granuloma associated with extended wear contact lenses, 99
Quality control
Inspection and measurement of soft contact lenses using a new instrument, 86
Radial keratotomy
Optical correction of postoperative radial keratotomy patients with contact lenses, 59
Presumed epithelial ingrowth following radial keratotomy, 247
Scanning electron microscopy
Keratocyte interactions with hydrogel materials, 54
Silicone acrylate
Chlorhexidine gluconate and benzalkonium chloride adsorption on silicone/acrylate polymers, 43
Snellen test
The other side of visual acuity testing: Contrast sensitivity, 230
Soft contact lenses
Bacterial adherence to contact lenses, 220
Trends in contact lens associated corneal ulcers, 145
Specular microscopy
Wide-field specular microscopy of corneal epithelium, 165
Staphylococcus
Bacterial adherence to contact lenses, 220
Tears
The dry eye: Its mechanisms and therapy, with evidence that contact lens is a cause, 234
Thimerosal
Ocular surface disease complicating hydrophilic lens wear, 158
Toricity
Indications for contact lens fitting after keratoplasty, 225
Visual acuity
The other side of visual acuity testing: Contrast sensitivity, 230
Wound healing
Presumed epithelial ingrowth following radial keratotomy, 247
